Product Authentication Service for QuickPrint PDF Lite for Mac OS X

To complete the installation of our product, you will need to 'authenticate' the machine on which this software is being installed.

Please enter the serial number (generated by the software when first launched) into the 'Serial Number' box below and complete the remaining fields.

An authentication number will then be generated.

Your Authentication Key is : 840781254+RNP

Please copy the above code into the software authentication window.
